EXPERIENCE

Full-Stack Software Engineer
Hudl

📅 March 2021 – Ongoing   📍 Lincoln, NE (Remote)

- Work on a small agile cross-functional squad that powers the user experience for the Hudl Focus autonomous camera as well as the backend to support the fleet of cameras.
- Code at all levels of a web-app stack: from the front-end JavaScript all the way down to the database using technologies like React, C#, MongoDB, and a number of AWS services.

Junior UI Developer
Level Five Solutions

📅 August 2020 – March 2021   📍 Overland Park, KS (Remote)

- Implemented client websites with an intentional focus on user experience and the ultimate goal to create digital experiences for local favorites, big brands, and non-profits.
- Utilized various technology stacks to satisfy clients' requirements including ASP.NET/SQL/Azure, React/Firebase, and more.

Software Engineer Intern
Spreetail

📅 May 2020 – July 2020   📍 Lincoln, NE (Remote)

- Developed and tested .NET Core microservices including back-end APIs, Kubernetes CronJobs, and RabbitMQ events in various e-commerce related internal applications.
- Served as the Brand Analyst on the eTern Brand Agency which included brainstorming and executing weekly social media posts highlighting the intern experience.

Football Student-Athlete
University of Nebraska-Lincoln

📅 June 2017 – Ongoing   📍 Lincoln, NE

- Balance and manage academic and athletic responsibilities, taking 15 credit hours a semester and investing 20+ hours a week in football-related activities.
- Communicate and collaborate with a diverse group of student-athletes, coaches, and athletic department staff members.
- Demonstrate discipline, a strong work ethic, and a competitive drive on and off the field.
- Serve as a positive ambassador and role model for the University of Nebraska by promoting dedication to academics, hard work, and the community.
